YOU CAN'T EAT APPETITE POOR

Multitudes of people lose their appetite. Simply don't care for anything to eat. The dinner bell has no interest to them. They loathe their breakfast. They may nibble a little of this and a little of that, but they do not care for it.

Lunch has lost all of its charms, although they try to eat something. Dinner about the same.

There is something positively wrong, of course, but no disease that can be named. Just out of sorts. That is all.

It is in this kind of a condition that Peruna acts very beneficially. After using Peruna, interest in food is revived. Beginning with a teaspoonful of Peruna before each meal will generally quickly improve the appetite and help the digestion.

Thousands of people can testify to this. Liberated from a slavery that is almost unbearable. The slavery of having no interest in life. All used up. Yet one does not know exactly why. Take Peruna before each meal. Skies will get blue again. Fields will look green once more and life will be pleasant. You will feel that you are good for something and the world will do it. Not as an artificial stimulant. Simply a tonic that stimulates appetite in a natural way.

Those who object to liquid medicines can now obtain Peruna Tablets.

Pure Food Law

The regulations for the carrying out of the so-called "net-weight law" which compels manufacturers to make a clear statement of the weight, volume, or contents of their packages of food, were signed May 11 by the Secretaries of the Treasury, Agriculture, and Commerce. These regulations apply to foods shipped in interstate commerce or sold in the District of Columbia or the Territories. The regulations as signed became effective at once, although the law, passed March 3, 1913, as an amendment to the food and drugs act, forbids the exacting of penalties for violations until September 3, 1914.

The regulations, in general, require that the manufacturer of foods shall plainly mark all packages, bottles, or other containers holding more than 2 ounces avoirdupois, or more than 1 fluid ounce, to show the net weight or volume of the contents. The measure must be stated in avoirdupois pounds and ounces, United States gallons, quarts, pints, or fluid ounces, United States standard bushels, half bushels, pecks, quarts, pints, or half pints. The contents by a like method may be expressed in

terms of metric weight or measure. The volume of liquids must be computed at 68 degrees F.

The quantity stated on the container must represent the actual quantity of food exclusive of wrappings and container.

In general, solids must be stated in terms of weight and liquids in terms of volume, except that where there is a definite trade custom otherwise any marking of the package in terms that are generally understood to express definite quantities will be permitted. The quantity of viscous or semisolid food or of mixtures of solids and liquids may be stated either by weight or measure, but the statement must clearly indicate whether the quantity is expressed in terms of weight or measure.

In the case of certain articles the contents may be stated by numerical count, provided such numerical count gives accurate information as to the quantity of food in the package. Under this requirement it would not be enough to state that a package of candy contained 24 cream peppermints, as candies vary in size, and this would not be a statement of the actual quantity of candy in the package.

The regulations also permit the statement of minimum volume or weight, as "Minimum weight, 12 ounces"; "Minimum volume, 1 gallon"; "Not less than 4 ounces." In such cases the amount stated must approximate the actual quantity. No variations below the stated minimum quantity will be permitted.

The statement of weight or measure must be marked in terms of the largest unit contained in the package; for example, if the package contains a pound and a fraction, the contents must be expressed in terms of pounds and fractions thereof, or pounds and ounces, and not merely in ounces.

Tolerances

In the packing and bottling of many foods it would be impossible, or else add unnecessarily to cost, for the manufacturer to place an absolutely accurate statement of the amount of the food in every package, and for this reason the regulations permit tolerances or variations in packages where the discrepancies are due exclusively to unavoidable errors in weighing, measuring or counting which occur in packing conducted in compliance with good commercial practice. This tolerance is allowed in order to permit the use of weighing and measuring machines which, like human operators, can not weigh or measure with absolute accuracy every package. The regulations, however, provide that a run of such packages must

show as many cases of overweight and as much excess as does cases of underweight or undervolume.

Similarly in the case of bottles, which can not be blown with absolute accuracy, tolerances are allowed, but with the same provision that the run of bottles must show as much excess in volume as deficiency in volume. Queer-shaped bottles must not show greater discrepancies than standard round or square bottles of the same capacity. This means that a manufacturer who uses some special bottle of odd shape can not claim a greater variation because of the difficulty of blowing or manufacturing such a bottle or container.

Because goods shipped from one part of the country to another lose in weight by natural evaporation due to differences of atmospheric conditions or temperature, tolerances will be allowed for such changes. The proper tolerances to be allowed will be determined on the facts in each case, and it is probable that the department will establish tolerances for evaporation for various foods.

Packages containing 2 ounces avoirdupois or 1 fluid ounce of food or less are considered small and are exempted from marking in terms of weight. The reason for this is that providing accurate small bottles and accurately measuring their contents in the case of a number of articles sold in small packages for 5 or 10 cents would be prohibitive in cost to the manufacturers and would force them to raise the price for the package or to put less food in it for the same price.

June 15 is the Date

State Primaries, and Some Things Voters Should Remember

Nominations by Republicans, Democrats and Socialists in this State are to be made in the primaries June 15. This will be the second application of the new law and there are features in connection with the process which it will be well for voters to consider. Petitions have been filed by those aspiring to these nominations and the men who will run for Governor, for Congress, the County officers, and for judges, will be selected at that time.

All old time conventions are discontinued by these three parties. Progressives and Prohibitionists are making their nominations under the old law which provides the opportunity for all who are not members of the established parties, casting at least one per cent of the total vote for Governor in the State, two years ago, to have tickets.

No person can vote at the primary election whose name is not on the voting list and enrolled as a member of some political party.

A voter can only get and vote the ticket of the party which he is enrolled.

A voter who is enrolled as a D and an R can get the ticket of the party he desires and the check mark will be made through the letter of the party for which he votes.

A voter who is not enrolled can vote by filing an enrollment blank in the ward room. The blank must be sworn to before the warden and the voter enrolled and checked on the lists and the enrollment must be returned to the city clerk by the warden.

All voters who have registered since June 1912, are not enrolled and if they desire to vote at the primary must file an enrollment with the city clerk or the board of registration of voters, before June 15th, or enroll under oath in the ward room. Changes of enrollment cannot be made on the day of the primary.

Enrollment blanks may be obtained from the city clerk or the board of registration of voters.

Voters should remember that this election is simply a caucus of all political parties held on the same day and is for the nomination of candidates only, to be voted for at the State election to be held Monday, Sept. 14th. The board of registration of voters will be in session for registration for the primary election from June 1st to June 10th, inclusive.

Starting Big Farm

With the carrying into effect of plans of the Summit Lumber Co. of Davidson, of which Ora Gilpatrick of this town is the controlling owner, there is soon to be established what will be the largest farm under cultivation in the state of Maine. With between 300 and 400 acres of land all cleared and ready for tillage the company is making a start this spring on a farm that when it is finally completed, will comprise the most up-to-the-minute and modern agricultural plant and fully 1,000 acres of the best farming land in the state of Maine, all under cultivation.

The idea is to clear some every year from the company's holding at Davidson, utilizing the hardwood in the clothes pin factory and La's block mill.

The whole proposition is to be con-

ducted on a scientific basis and in charge of the farm the company is to place Herbert B. Bailey a graduate of the agricultural department of the University of Maine, who has been doing similar work at Togus, where he has achieved an excellent reputation for practical farming and is now considered one of the leading agriculturists in the state.

Work is to be commenced early in June on the erection of a large and modern dairy barn, which will have a capacity for 200 head of cattle but at present the company will put in but half of that number, all excellently bred stock. They will be ready as soon as the barn is ready to receive them. The barn will be one of the features of the place and it will have a full James equipment. Sanitation will be given a great deal of attention and each cow will even have its individual drinking pail.

The dairy machinery will be run by electricity and light for the plant will be furnished from the same source. The water supply will also be handled with the current and electric pumps will be used to fill a large tank near the stable, which will not only permit plenty of water for all ordinary purposes, but will afford splendid fire protection as well.

On this farm special attention is to be given to the raising of potatoes, and the land for that purpose is to be cleared just as fast as it is possible to do so.

The Summit Lumber Co. used to operate a large sawmill at Davidson but it was destroyed by fire several years ago, and never has been rebuilt. A clothes pin factory has been erected and the output is increasing steadily. Adjacent to the factory, a temporary mill is to be erected to saw the lumber that will be used in the construction of the barn and the other farm buildings and cottages.

There is no more progressive business man in the whole of northern Maine than Ora Gilpatrick. He owns a whole township of land and has ample means to carry out the farm project on a large scale so that it will doubtless prove a complete success.

Mr. Gilpatrick started in the mill business at Davidson shortly after the advent of the B. & A. and with the building of the mill came a thriving settlement. Today there is one of the best of the new towns in the county at that place, controlled entirely by Mr. Gilpatrick who has provided attractive homes and a large amusement hall for his employees, being ably assisted by his brother, Elmer, and his two sons, Rex and Ben.

During the past several years the company has carried on an extensive business in the manufacture of last blocks, as well as clothes pins, at Davidson, Houlton and Harvey's Siding, and larger operations in New Brunswick near Fredericton.

Typewriter Co. Open Factory Branch

Under new districting plans, which have just been completed by the L. C. Smith & Bros. Typewriter Co., Maine patrons of this widely known company are to be much better served than formerly.

In place of L. C. Smith & Bros. typewriter office as at present conducted at Portland, the company will on June 1st, open a Direct Factory Branch at 100 Exchange St., Portland, with the sub office at Bangor, under the supervision of the Portland office. The Portland office will carry a large stock of typewriters, as well as a complete equipment of L. C. Smith typewriter parts and supplies, and will be in a position to give Maine patrons a speedier, more satisfactory service than ever before. C. A. Spratt, who has been the local manager for this company for eight years, will be advanced to state manager with headquarters in Portland, leaving complete jurisdiction over Maine. Mr. Spratt's many friends in Bangor and Eastern Maine will congratulate him on his well-merited promotion.

The Bangor office with efficient salesmen and an expert mechanic as at present, will continue under the direction of Mr. Spratt, a fact which under the improved system and facilities, assures prompt attention and better service than ever for local patrons of this popular house.

The Band boys gave their first open air concert of the season in the square Saturday evening before one of the largest crowds seen here for some time, and the boys certainly made a fine showing. With all local members and no outside help, they have made wonderful improvement and with the exception of Houlton, they are second to none in the county.

There is some talk of a ball team from here going into a league with Houlton, Woodstock and Island Falls. There is a lot of good material for a local team and the boys are willing to give their time for a game or two a week. If the citizens will help out some along the financial end there is no reason why we cannot have some good games during the summer.

Haag's Circus.

Lovers of the out of ordinary amusement will be interested in the announcement that the mighty Haag shows are coming Monday, June 15, in Houlton, presenting decidedly the largest and greatest program of original, unique and thrilling featured act known today to the show world. This vast tented amusement enterprise is alone in a class by itself, without a rival.

Nothing like the imperial performance proffered by Ernest Haag was ever before dreamed or dared by the boldest managers.

Whatever your preference, you will find plenty to interest, astonish and edify you; there are thrilling aerial acts during every moment of which one expects to see the intrepid performers hurled into eternity, artistic and sensational equestrianism, incredible and bewildering athletic and acrobatic numbers, blood chilling jockey, hurdle and chariot races, amazingly venturesome bicyclists, and phenomenal exhibitions by fierce wild beasts. In fact, so numerous and varied are the novelties offered in the rings and upon the elevated stages, and upon the mammoth hippodrome track by these shows, lack of space will not permit each of these to be mentioned. The quantity and quality of the features are such as to really stagger comprehension.

It matters not what shows you have seen or how big the mighty Haag shows have been in years gone by, this season they completely over-whelm all past efforts.

Communication

To The Citizens of Houlton:

For four years it has been my
privilege to come in contact with
many of you through the children
of this town. To them I have tried
to impart the knowledge which was
given to me by the best Art educa-
tors in the country. It is a great re-
gret to me that this subject is to be
dropped in the schools at present.
For Art education is coming more
and more to the front all over the
civilized world. It not only trains the
eye and hand, it broadens the out-
look of the children for the future
years by teaching them to see all
things in their proper proportion.
Joy in life does not consist in how
much we have but in having our
eyes opened to enjoy what is around
us.

I wish to publicly thank the teachers
for their help and friendship; the
parents for their interest in the
work; and the many friends who
have done so much to make these
years pleasant ones for me.

Finally, children, who have be-
come so dear to me, I ask you to try
to remember and make use of what
you have learned. I shall place the
"School Arts Magazine" in your
library for the coming year, the first
issue being in September. That you
read it and keep in touch with this
subject is my desire.

Since the first of May potato prices
have been dropping until Saturday,
when the price advanced and has
now reached \$1.65. The price at the
first of May was \$1.50 a barrel.

Potato shipments have been un-
usually heavy, however, and May
was the biggest month for the same
time of the year that the Bangor &
Aroostook R. R. Co. has any records
of. There were shipped over the
line of the road during that month
1906 cars, against 1,318 for the year
before and 995 for the year before that.

In spite of the fact that the ship-
ments this year have been a great
deal heavier than during the past
years there are still a good many po-
tatoes in Aroostook, grown in last
season's crop.

The following is the record of the
potato shipments over the B. & A.
R. R. for the past three years:

	1911	1912	1913
August	1758	49	298
September	3350	1691	3113
October	2540	2259	3522

The Produce News says:
Receipts of old potatoes on Bar-
clay Street dock are much lighter
and the market is in better shape
owing to an increased local demand,
and also to some exporting. Trad-
ing there is on the basis of \$2.35 and
2.40. As the accumulation has been
reduced, the market is in healthy
condition.

Wheeler Circus

The representatives of the Wheel-
er Bros. Greater Shows have com-
pleted all arrangements for the ap-
pearance of that world-famous en-
terprise in Houlton on Thursday,
June 18.

For more than a decade the Wheel-
er Bros. Circus have maintained a
prominent place in the front rank of
American shows because of its un-
usual characteristics as a circus, its
essential quality of "different from
other shows," its fine menagerie and
its great display of the finest horses
in the world. The famous Stam-
pede Wild West Shows, which have
a world-wide reputation and which
were enjoyed by many people of this
country at two of the World's Fairs,
are conceded to be without equal in
their special line. What then may
be expected when it is announced
that we are to be treated to such an
exhibition as the combination of
these two shows? Surely the pat-
rons of tented amusements will be
justified in expecting an unusually
meritorious performance, and they
will see surprising exhibitions of
trained animals and skillful perform-
ers such as they have never before
witnessed.

Among the many features are
"Tango," earth's largest living ani-
mal, a troupe of genuine Cossack
Whirlwind Riders, Paris Hippo-
drome, Races and special engage-
ment of the celebrated Mendoza
Company of Mexican Bull Fighters
in a realistic reproduction of a Gen-
uine Mexican Bull Fight. A thrill-
ing exhibition of nerve and agility.

Wheeler Bros. Shows will exhibit
in Houlton on Thursday, June 18,
giving a grand spectacular street
parade in the morning and perform-
ances in the afternoon and evening.

West Houlton Dairy.

Times were, when a man, who lived
on a farm or in the country was
obliged to content himself with what
nature provided (plus a little ingenu-
ity) in the way of water supply for
his buildings, but all this, was be-
fore the invention of the Leader
Water System, and low priced elec-
tricity for commercial purposes, or
gasoline engines. Now-a-days every
farm building no matter how remote
from town, can enjoy every water
privilege that his city brother en-
joys and at a very small expense.

The Times representative was re-
cently privileged to examine a Leader
System, which has just been in-
stalled by F. G. Drinkwater heating
and plumbing engineer of this town
in the farm and dairy buildings of
B. A. Brewer Prop., of the West
Houlton Dairy and for a smooth
running, convenient and economical
system it cannot be excelled.

The dairy building has just been
completed, built purposely for hand-
ling milk in an up to date and sani-
tary manner, it is about 20x10 feet
divided into 3 sections a milk room,
loading room and ice house.

The milk room is equipped with
several labor saving devices, a large
cooling tank, a metal table for bot-
tling, a large washing sink connected
with hot and cold water.

The Leader Water System sup-
plies an unfailing supply of pure
soft and hard water both hot and
cold. It is operated by an electric
driven pump which works auto-
matically and by its use a pressure
in the pipes varying from 30 to 50 lbs.
is available at all hours of the day
or night, when the air pressure in-
creases to thirty lbs. the controller op-
erates and the motor starts the pump,
as soon as enough water has been
pumped into the tank to raise the
pressure to 50 lbs. the motor is au-
tomatically stopped by the controller
cutting off the current.

By the use of valves in the pipes
the supply for both house and dairy
can be changed from soft water piped
from Moose Brook, to pure hard
water taken from a deep well, the
pressure developed is capable of
throwing water through a hose over
any or all of the buildings furnishing
a fine fire protection worth many
times the cost of the system.

Mr. Drinkwater personally super-
vised the installation of this fine
system and both he and Mr. Brewer
will be pleased at any time to ex-
plain to all callers who care to call
and see the most up to date dairy in
this section, where good clean whole-
some milk and butter are prepared
in a hygienic manner for the market.

conveyed by Joseph A. Clark to said Jacob
Hardison by deed of warranty dated Septem-
ber 28th, 1881, and recorded in Aroostook
Registry of Deeds Vol. 73, Page 457. Said
premises being a part of the same premises
conveyed to Parker L. Hardison by Adeline
Hardison, by deed of warranty dated February
25th, 1894, and recorded in Aroostook Registry
of Deeds Vol. 147, Page 116. Excepting and
reserving from the above described premises a
strip two (2) rods in width of the East side
of said farm bounded and described as fol-
lows: Beginning at the Eastern line forty (40)
rods more or less to the township line be-
tween "H" and "H" now Caribou; thence
West by the last mentioned line two (2) rods;
thence North and parallel with the East line

THE EXPRESS IS IN THIS TOWN AND IN TO STAY

FOR seventy-five years—three-
quarters of a century—the ex-
press has been the right-hand
of the shippers of commercial
America. The Express came to
Houlton in 1869 and it came to
stay. For 45 years it has been
the right-hand of commercial
Houlton.

It is here to stay. The other day
when reports went out that the
express companies might retire
from business, a protest went

up. From whom this protest--
the express companies? No!
The merchants of the country--
shippers everywhere--petitioned
Congress that no action be
taken that might have the effect
of forcing the express compan-
ies to retire. Commercial orga-
nizations all over the land have
joined in this appeal to Wash-
ington. For seventy-five years
in the past and for a good many
more years in the future Ex-

Pressed Concrete Brick

They are better than clay brick because:

- 1st. First they are fireproof.
- 2nd. No brick user will refuse a pressed brick in preference to a common brick.
- 3rd. They possess all the advantages of other brick multiplied by the superior lasting qualities of concrete.
- 4th. They lay quicker and better because they are perfectly true and uniform in size.
- 5th. They endure forever and get stronger with age.
- 6th. They compete with the most expensive high grade repressed face brick in quality and the common clay brick in price.

Rev. Fr. Silke of St. Mary's Catholic Church denounced the two dark complexioned gentlemen wearing a clerical garb and purporting to be missionaries, as impostors, and the public should govern themselves accordingly when approached by them for funds.

Life.

The poet's explanation: "Oh Life! I feel thee bounding in my veins," is a joyous one. Persons that can rarely or never make it, in honesty to themselves, are among the most unfortunate. They do not live, but exist; for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people, men, women, well and strong, has accomplished a great work, bestowing the richest blessings, and that medicine is Hood's Sarsaparilla. The weak, run-down, or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into life, and makes life more abundant. We are glad to say these words in its favor to the readers of our columns.

Contract Canceled

A cancellation of a contract between Boston & Maine railroad and T. H. Phair of Presque Isle, for the purchase of railroad ties was ordered last week by the public service commission on the ground that the contract was illegal and contrary to public policy.

The contract with Mr. Phair provided that the Boston & Maine should not purchase ties from any other person along the line of the Bangor & Aroostook railroad and that Phair should not sell ties from the same line to any other parties than the Boston & Maine, Maine Central and the Bangor & Aroostook railroads. The contract was signed in 1900 and had a year to run.

Woodman Observe

Memorial Day.

Sunday May 7th was universally observed by the Woodman Camps throughout the county as Memorial Day, and Houlton Camp M. W. of A. and North Star Camp of R. N. of A. of this town turned out in large numbers in answer to the V. C.'s call for this purpose.

At 2 o'clock headed by the Houlton Cornet Band nearly 100 ladies and gentlemen of the order formed for the march to Evergreen Cemetery where floral tributes were placed upon the graves of departed neighbors.

The impressive memorial service was held at the grave of the late Daniel Farley.

PROFITABLE DAILY TITHING.

"Daily Heavenly Manna."
This little book is having the largest
circulation of any of its kind and is
conceded by Christians everywhere to
be the most helpful.

If Christians allow the rush and
crush of selfish ambition to deprive
them of their daily portion of heav-
enly food, they must not be surprised if
they grow spiritually leaner day by
day, and if the peace of God gives
place in their hearts to the discontent
which is growing in the world, not-
withstanding the multiplication of our
comforts and privileges.

Daily Heavenly Manna contains a col-
lection of Scripture texts with appro-
priate quotations for every day in the
year. Surely the little tithe of time
daily spent in partaking of its morsels
of heavenly counsel cannot fail to
profit all who partake. It is published
to do good—not for profit.

Your Friends' Birth Dates.
An autograph and birthday record
feature in this book is a great conven-
ience. Opposite each day of the year
are blank lines upon which you can
secure the autographs of your friends
and be reminded of their birthdays as
they occur. This makes the book more
valuable yearly. In ten years you
would not sell it for ten dollars.

Besides it has a place for Birth Rec-
ords, Marriage Records and Death Rec-
ords. Also it has a table showing the
day of the week of any date for one
hundred and fifty years.
Printed on bond writing paper, blue
cloth, handsome. Price, 35 cents post-
paid; imitation alligator skin, gold
edges, \$1.00 postpaid. Order now. Bible

BIBLE STUDY ON

THE FRIEND OF SINNERS.

Luke 18:9-14; 19:1-10—June 14.

"I came not to call the righteous, but sin-
ners."—Mark 2:17.

THE parable of today's lesson re-
veals the heart attitude of
some of the Pharisees and of
the despised publicans. Two
men went up to the Temple to pray.
From God's standpoint both were sin-
ners, and needed forgiveness of sins.
But the Pharisee trusted in his own
imperfect works, and asked no for-
giveness; the publican, however, re-
alized his blunders and prayed for
mercy.

We must not get the impression that
God is more pleased with those who
live in sin than with those who strive
to the best of their ability to live in
harmony with His
Law. On the con-
trary, we must
all realize that we
come short of per-
fection and need
divine mercy.
The sinner who
recognizes this
fact is more pleas-
ing to God than is
the more moral
person who fails
to see his blen-
ders.

The Pharisee and the
Publican.

Jesus referred to this same error of
the Pharisees at another time, saying,
"I came not to call the righteous, but
sinners, to repentance." He thus
sought to call attention to the fact that
although the Pharisees claimed to be
righteous, yet they were not so. Until
they should learn that they and all
other members of the Adamic race
were sinners and needed the remedy
which only the Redeemer can give,
they were not in condition to come to
Him for forgiveness.

Not realizing their need, the Phari-
sees did not become Jesus' disciples,
and thereby missed a great blessing.
On the contrary, the majority of His
followers were publicans and sinners—
people who had not been living proper
lives, but who earnestly acknowledged
their faults, turned from sin, accepted
healing from the Good Physician, and
became His followers.

A Little Man—a Big Heart.

The latter part of our lesson relates
to Jesus' journey from Jericho to Jeru-
salem, just prior to His crucifixion.
Multitudes were journeying in the
same direction, going up to the Pass-
over. Zachaeus, a rich man of that
vicinity, was curious to see Jesus. He
was not a Pharisee; he did not profess
holiness of life. He was a tax col-
lector for the Roman government—a
publican. On this account he was de-
spised, and declared to be disloyal to
Judaism.

Small of stature, Zachaeus was un-
able to see Jesus because of the crowd.
Therefore he ran ahead and climbed a
tree, to have a good view of Jesus as
He passed by. When Jesus came near,
He called to Zachaeus to come down
at once, for He was to be his guest.
The summons was gladly received by
Zachaeus. But the whole circum-
stance greatly disgusted the Pharisees,
who remarked that Jesus would be-
come the guest of one not orthodox.

Fortwith Zachaeus addressed the
Master as though urging that the
charges against him should not hinder
the Master from becoming his guest,
and as intimating his desire to do
right. Jesus replied to Zachaeus:
"This day salvation came to this
house; forasmuch as he also is a son
of Abraham." From the Lord's stand-
point all Abraham's sons were eligi-
ble to discipleship. The one thing re-
quired was an honest confession of im-
perfection, an honest turning from sin,
a hearty acceptance of Christ and an
endeavor to walk in His steps.

Unquestionably this principle still
applies, regardless of what men may
think or say to the contrary. The Lord
is willing to receive the repentant.
The middle wall of partition between
Jew and Gentile has been broken
down, as St. Paul explains. All who
have Abraham's faith may be counted
in as Abraham's children by becoming
related to the Divine Plan as Jesus' dis-
ciples.—Galatians 3:16, 29.

"That Which Was Lost."

Our lesson closes with Jesus' words,
"For the Son of Man came to seek and
to save that which was lost." Some
who deny that Adam was created per-
fect, who deny his fall from Divine
favor and who deny that redemption
was necessary, have sought to sustain
their position by
saying that Jesus
never referred to
man's fall, al-
though the Gene-
sis account tells
of it, and St. Paul
and other Apos-
tles particularly
mention it. But
in this text we
have Jesus' own
statement as to
why He came
into the world.

Jesus and Zachaeus.

He came to be man's Redeemer—to
seek and to recover, restore, that which
was lost.

Everlasting life was lost. Eden was
lost, human perfection was lost, the
image of the Divine character was
lost. These could not be recovered
by humanity, all of whom were under
death sentence—the curse. But God's
compassion arranged a Plan, whereby
Jesus came into the world and gave
Himself a Ransom for all—to be testi-
fied in due time. The very fact that
the Master speaks of His work as a
ransoming one (Matthew 20:28) cor-
roborates the declaration that man
needed to be ransomed from death.
